EXPERIENCE

Frontend Engineer

Jan 2024–Present

Neobase

Remote

- Proficiently employing a modern tech stack including Next.js, TypeScript, wagmi (for Ethereum-based web3 applications), and Apollo GraphQL to build and integrate dynamic, data-driven web applications.
- Collaboratively working with UI/UX designers to translate designs into functional and responsive web interfaces, ensuring high fidelity to design prototypes and user experience principles.
- Leading the frontend integration of blockchain functionalities using wagmi, enabling secure, decentralized transactions and interactions within applications.

React.Js Developer

June 2021– Jan 2024

Tata Consultancy Services

Noida, Uttar Pradesh

- Collaborated closely with UI/UX designers and Back-End Developers to successfully deliver **20+** responsive and interactive web applications using **React, Next HTML, CSS, JavaScript** and **TypeScript**.
- Implemented efficient state management using **Redux**, optimizing application performance and maintaining a consistent user experience.
- Integrated **RESTful APIs** and **GraphQL** queries to fetch and display data, ensuring seamless data synchronization between the front-end and back-end.

Project Intern

March 2021 – May 2021

Cognizant

Remote

- Assisted in building and maintaining front-end components for web applications using **Javascript, HTML**, and **CSS**.
- Collaborated with senior developers to **troubleshoot** and debug issues, contributing to the resolution of critical bugs and enhancing overall application stability.

PROJECTS

Canto | Next.js , Typescript, Wagmi, Viem

- Contributing to **Canto.io**, a layer-1 blockchain platform designed to fulfill the potential of DeFi by fostering accessibility, transparency, and freedom within new financial systems. Responsible for creating and redesigning **Canto lending protocol interface** and **Canto analytics**.

BlankRasa | Next.js , Typescript, Wagmi, Viem

- **Blank Rasa** is the **NFT** marketplace that fiercely defends artist royalties. Trade collectibles and mint with support for ERC-1155, html, mp3, and mp4. Contributing to Blank rasa codebase to improve UI and frontend features.

OmniCat | Next.js , Typescript, Wagmi, Viem

- **OmniCat** is The first ever Omnichain meme coin — One cat to rule all chains. Contributing to OmniCat and is responsible for creating UI and adding new features.

TECHNICAL SKILLS

| **Next.js** **React.js**,, **TypeScript**, Appolo Graphql, **Wagmi** , Viem, **JavaScript**, **Solidity**, **Remix** , **Redux**, **JSX**, **SASS**, **Tailwind CSS**, **GSAP**, **CSS**, **HTML**, **Responsive Design**, **Git**, **GitHub** , **Bitbucket**, **Jest**, **React Testing Library**, |
